

## ***Who can be ok with this?***

***Based on a weekly and cumulative snapshot of injuries since the rollout for children began, we are bringing to light the number of children (aged 5 to 17)\*\* that have been reported with injuries related to the Covid-19 vaccines.***

***It is a challenge to those that have been desensitized to the dangers that these experimental mRNA therapies pose to our children.***

***This analysis is taken from the DAEN (Database of Adverse Events Notification) which is available at <https://www.tga.gov.au/database-adverse-event-notifications-daen>***

***This database is provided by the TGA (Therapeutic Goods Administration) who regulate the use of pharmaceutical drugs in Australia. The latest data is 14 days delayed in this database.***

***Many of these Adverse Reactions for these kids are extremely serious in nature;***

***(Death, Heart Inflammation, Strokes, Blood Clots, Loss of Consciousness, Appendicitis, Brain Haemorrhage's etc)***

***If like us, you are NOT ok with this, please share with others who may NOT be aware of this information.***

# Is there a crisis in Australia with the number of children that have been reported with Injuries after Covid-19 Vaccination?

We look at the Adverse Events being registered for kids aged 5 to 17\*\*

## Monitoring of Adverse Events to Covid-19 Vaccines for Children since rollout began

KIDS AGED 5 TO 17**	Week ending 02/09/22	Increase on last week
Total Number of Adverse Events reported	5,634	+6
Heart Inflammation cases reported	484**	+1
Nervous System Disorders reported (all)	2,137	+3
Troponin Increased (blood marker of heart damage)	253	-
Cardiac Disorders reported (all)	825	+1
Visual damage / impairment reported^^	120	-
Chest pain / Discomfort reported	1,160	-
Injury, Poisoning and Procedural Complications (all)#	855	+1
Deaths reported	10	-

## Who can be ok with this?

\*<https://daen.tga.gov.au/medicines-search/>

\*Data taken for new BETA DAEN. Which allows for more accurate searches of the data  
 \*\* This includes some cases for children aged <5 where a covid-19 vaccine was administered  
 ^^ includes cases of Blindness, Diplopia, Iritis, Iridocyclitis , Mydriasis , Papilledema, Photophobia, Photopsia, Scleral hyperaemia, Vision Blurred, Visual Impairment, Uveitis symptoms

# What types of Adverse Events are being reported?

- **Seizure** - (numerous)
- **Angioedema** – swelling caused by leaky blood vessels (numerous cases)
- **Syncope** - Loss of Consciousness (numerous cases)
- **Pyrexia** – abnormal elevation in body temperature (numerous)
- **Tachycardia** – Heart Rate over 100 bpm (numerous cases)
- **Heart Inflammation (Myocarditis, Pericarditis)** – inflammation around the heart (numerous cases)
- **Hypotension** – Low blood pressure (numerous)
- **Demyelination** – reduction in protective coating around nerve cells (numerous)
- **Basal ganglia haemorrhage** – Brain Haemorrhage (numerous)
- **Urinary Incontinency** – uncontrollable leakage of urine (numerous)
- **Periorbital oedema** – swelling around the eyes (numerous)
- **Cardiac Arrest** – (numerous)

**Medical Terms**

**and Definitions:**

***The Benefits of taking this Vaccine must ALWAYS outweigh the risks***

***Are these side effects more dangerous than the risk covid-19 poses to YOUR child?***

- **Acute lymphoblastic leukaemia** – (4 year old)
- **Troponin in blood stream** – evidence of heart damage (numerous cases)
- **Dyspnoea** – difficult or laboured breathing (numerous cases)
- **Myocardial Infraction** – HEART ATTACK – (9 year old)
- **Type 1 Diabetes/Diabetic ketoacidosis** – (numerous)
- **Cerebrovascular accident** – A Stroke (6 year old)
- **Fibrin d-dimer increased** – blood clots (numerous cases)
- **Appendicitis** – (numerous cases)
- **Erythromelalgia** – Intense burning pain in the feet (6 year old)
- **Pneumonia** – (numerous cases)
- **Tremors** – involuntary movement of different parts of body – (numerous cases)
- **Enterocolitis** – Inflammation of the digestive tract (5 year old)
- **Transverse Myelitis** – Inflammation of the Spinal Chord (9 year old)

**Medical Terms**

**and Definitions:**

## Deaths reported for kids aged 0 to 17 since rollout began

### Deaths Reported to the TGA after Covid-19 Vaccination for kids aged 0 to 17\*

No	Date	Case Number	Age	Sex	Reaction / Injury Reported
1	02/9/21	616124	17	Male	Myocarditis
2	20/10/21	647663	14	Female	Brain Herniation
3	11/3/22	719838	7	Male	Cardiac Arrest
4	25/3/22	724023	9	Female	Cardiac Arrest
5	28/3/22	724925^	6	Male	Adverse Event Following Immunisation
6	15/1/22	695048	15	Male	Adverse Event Following Immunisation
7	6/5/22	733723	10	Male	Adverse Event Following Immunisation
8	10/5/22	734187	5	Male	Cardiac Arrest
9	11/7/22	744306	14	Female	Immunisation Reaction
10	25/7/22	746201^^	<1	Male	Hydrops Foetalis

^This case has been removed from the DAEN

^^ It appears a baby has died based on this condition before birth. This death Has since been removed from the DAEN

**^Nervous System Disorders includes the following serious reactions and number of cases reported for kids aged 0 to 17 years of age**

<b>MedDRA system organ class</b>	<b>MedDRA reaction term</b>	<b>Number of cases</b>
Nervous system disorders	Syncope	438
Nervous system disorders	Presyncope	265
Nervous system disorders	Seizure	73
Nervous system disorders	Tremor	51
Nervous system disorders	Loss of consciousness	32
Nervous system disorders	Bell's palsy	13
Nervous system disorders	Generalised tonic-clonic seizure	11
Nervous system disorders	Unresponsive to stimuli	10
Nervous system disorders	Dyskinesia	8
Nervous system disorders	Facial paralysis	8
Nervous system disorders	Petit mal epilepsy	6
Nervous system disorders	Demyelination	4
Nervous system disorders	Autonomic nervous system imbalance	3
Nervous system disorders	Febrile convulsion	3
Nervous system disorders	Tonic clonic movements	3
Nervous system disorders	Cerebrovascular accident	2
Nervous system disorders	Encephalopathy	2
Nervous system disorders	Epilepsy	2
Nervous system disorders	Guillain-Barre syndrome	2
Nervous system disorders	Intracranial pressure increased	2
Nervous system disorders	Tonic convulsion	2

**#Injury, Poisoning and Procedural Complications includes the following reactions and number of cases reported for kids aged 0 to 17 years of age**

<b>MedDRA system organ class</b>	<b>MedDRA reaction term</b>	<b>Number of cases</b>
Injury, poisoning and procedural complications	Vaccination error	733
Injury, poisoning and procedural complications	Product administered to patient of inappropriate age	322
Injury, poisoning and procedural complications	Wrong product administered	98
Injury, poisoning and procedural complications	Incorrect dose administered	62
Injury, poisoning and procedural complications	Inappropriate schedule of product administration	46
Injury, poisoning and procedural complications	Underdose	35
Injury, poisoning and procedural complications	Expired product administered	32
Injury, poisoning and procedural complications	Adverse event following immunisation	24
Injury, poisoning and procedural complications	Exposure via breast milk	15
Injury, poisoning and procedural complications	Maternal exposure during breast feeding	15
Injury, poisoning and procedural complications	Contusion	14
Injury, poisoning and procedural complications	Medication error	11
Injury, poisoning and procedural complications	Incorrect dosage administered	9
