

To Dr Katrina Allen and my State Senators

Re: **Domestic COVID Vaccine Passports Bill 2021**

MP Craig Kelly recently introduced a 'No Domestic Covid Vaccine Passport Bill 2021' to the Australian Federal parliament to ban the use of vaccine passports within Australia.

As my representative in the Federal Parliament, I expect you to support the progression of this Bill, so it is debated and voted on without delay.

Attaching fundamental freedoms to any vaccination – let alone new vaccines still under clinical trial, with no long-term safety data – is discriminatory, morally abhorrent and a breach of human rights.

The response to COVID-19 has been a catastrophic disaster. Like many governments across the globe, the Morrison Government failed to follow its own pandemic plan.

As a result of this failure, the rights of Australian citizens are being eroded, and the Australian Constitution has been rendered meaningless.

There has been a severe undermining of democratic traditions of our country. This illiberal and authoritarian type of government needs to be stopped.

The creation of a two-tier society based on vaccination status, is another example of the terrifying power shift that is occurring in the relationship between state and citizens. A grotesque loss of civil and political rights is underway, with little resistance from politicians such as yourself. It is happening on your watch.....

Mr Kelly is a rare and notable exception in this battle. I expect you to wholeheartedly support him on my behalf. Perhaps if people started listening to what he has to say, as opposed to slandering him, they may learn something important:

I look forward to hearing from you.

Regards

xxxx
